

Designed to keep
You safe from
Online threats.

Zemana AntiMalware Premium

Blocks online threats instantly and automatically before the infections take place.

You may have an anti-virus solution installed on your PC and think that you are safe, but having in mind the daily statistics for infected PC's which only have one AV installed, you might want to think again!

Zemana AntiMalware Premium

Zemana AntiMalware adds additional layers of security. With its real time protection, for fast and efficient scanning, it makes sure that you are protected, before malware has infected your PC. It is lightweight, highly optimized and fully compatible with any AV solutions installed. It doesn't affect your overall PC performance nor does it clutter up your drive.

How you benefit from it:

Blocks executions of harmful application

With the power of Pandora Real Time Sandbox Technology it dramatically increases zero day malware protection by blocking execution of files with low reputation

With the Scheduling Scan feature, you can set when you would like the scan to take place

The power of our cloud technology makes sure than no infection goes undetected!

How it works ?

1. Once you've downloaded and installed Zemana AntiMalware, automatic scan will start.

2. When our software finds a suspicious file, it passes the fingerprint to the Scan Cloud. Milliseconds later, the Scan Cloud marks the file as safe or malicious, or it examines it further

3. Zemana AntiMalware rapidly sets about removing any confirmed malicious software.

Zemana AntiMalware protection features

Advanced Malware Detection and Removal

Detects and removes malware and cleans your PC from all the infections that have taken place on your PC. Its efficient scanning technology will remove all types of malware infections, viruses, trojans, worms, rootkits, bootkits, unwanted apps, browsers add ons, adware and even those annoying toolbars!

Effective Against Rootkits and Bootkits

Removes rootkits and bootkits and repairs files they damaged. MRG Effitas conducted a Rootkit Remediation Comparative Analysis and based on this report, Zemana AntiMalware proved to be the best rootkit remediation among the globally known tested products during the test. See full report [here](#).

Browser Cleanup

Gets rid of annoying browser add-on's; unwanted apps, toolbars.

Real-Time Protection

Its cutting edge proactive protection runs continuously in the background, blocking infections before they take place.

Ransomware Protection

Blocks ransomware using its powerful ransomware protection features that have been proved as the best in the market as according to MRG Effitas. See full report [here](#).

Pandora Real Time Analysis Technology

Ability to detect bad programs that are never before seen.

Our products are proven and tested by independent IT security assessments organizations such as: MRG Effitas, AV-TEST Institute and many reputable IT magazines, such as: TopTen, CNET, PC World, Softpedia, Ssoftonic, Bright Hub, Tucows and they have the highest ratings on our software. You can also check our reviews out from our customers on our [website](#).

About Zemana

Formed in 2007, Zemana Ltd is a privately held technology-driven provider of award-winning security solutions that are used by a rapidly growing number of individuals and organizations realizing that traditional security products are not powerful enough to protect them against some of the most dangerous threats out there: identity theft, financial malware, spyware.

Our R&D team consists of veteran security experts with many years of combined experience in kernel development and threat prevention that enables them to constantly and continuously develop new technology.

Our technology protects a vast number of endpoints worldwide. Some of our partners and clients are financial institutions; banks, insurance companies, telecoms and many more.

Zemana team embodies a cosmopolitan culture of creativity, innovation and expertise, plus old fashioned integrity and fair dealing we prefer our business relationships to be on win-win basis.
